## ORGANIZATION OVERVIEW

---

### About Us

Give Education A Priority Organization is a non-profit, non-governmental organization committed to addressing the pressing needs of vulnerable children and community at large in WARRAP STATE, specifically in the Tonj East, South, and North areas of South Sudan. Established in July 2022, our organization was founded in response to the profound challenges faced by the community, including food insecurity, lack of clean water, and, at the core, the absence of educational opportunities for vulnerable children.

## ORGANIZATION OVERVIEW

---

### Background

The organization began its operations in July, 2022, when founders saw the challenge faced by the community; especially lack of proper healthcare, clean water, and the core being lack of education for the vulnerable children in the community. Starting with immediate community members, GEPO has been a game changer for the society at large. GEPO now operates as a fully-fledged NGO in the Hai Malakai area of South Sudan, with plans underway to expand to other areas for greater communal impact.

# OUR PROCESS

---

## Mission

Our mission at Give Education A Priority Organization is to empower and uplift vulnerable communities by providing access to quality education, ensuring access to clean drinking water, and improving community healthcare. We are dedicated to fostering sustainable development and creating positive, lasting change in the lives of those we serve.

## Vision

We envision a future where every child in WARRAP STATE has the opportunity to receive a quality education, where communities have access to clean and safe drinking water, and where healthcare services are readily available and accessible to all. Through our work, we strive to break the cycle of poverty and contribute to the holistic well-being of the community.

# CORE VALUES

## Empowerment

We believe in empowering individuals and communities to take control of their destinies by providing the tools and resources necessary for self-sufficiency.

## Equality

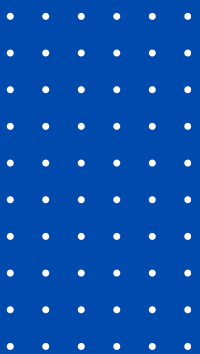

We are committed to promoting equality by ensuring that every child, regardless of their background, has equal access to education, clean water, and healthcare.

## Sustainability

Our initiatives are designed to be sustainable, promoting long-term positive change and resilience within the communities we serve.

## Transparency

We operate with transparency and integrity, ensuring that our stakeholders, donors, and the communities we serve are informed about our activities and the impact of their support.

## OUR WORK

### Education

Education is the backbone of a successful society. Every human being should have the right, privilege, and opportunity to get the best education possible. Unfortunately in our country, this is often not a reality for many impoverished people. Education falls by the wayside as people struggle to find food, shelter, and healthcare. Changing the social infrastructure is an enormous endeavor requiring manpower, money, and agreement among opposite ends of the political spectrum. We work to ensure that all children get education, regardless of the vulnerability situations and backgrounds.

## Provision of Clean Drinking Water

Give Education a Priority Organization (GEPO) is committed to developing projects and solutions that are sustainable in all aspects of ongoing operations. We will partner with local, in-country organizations as much as possible to ensure that projects are technically and culturally appropriate and will be sustainable over time, with the end goal being that our people get clean water for their domestic use and cater for other needs as well.

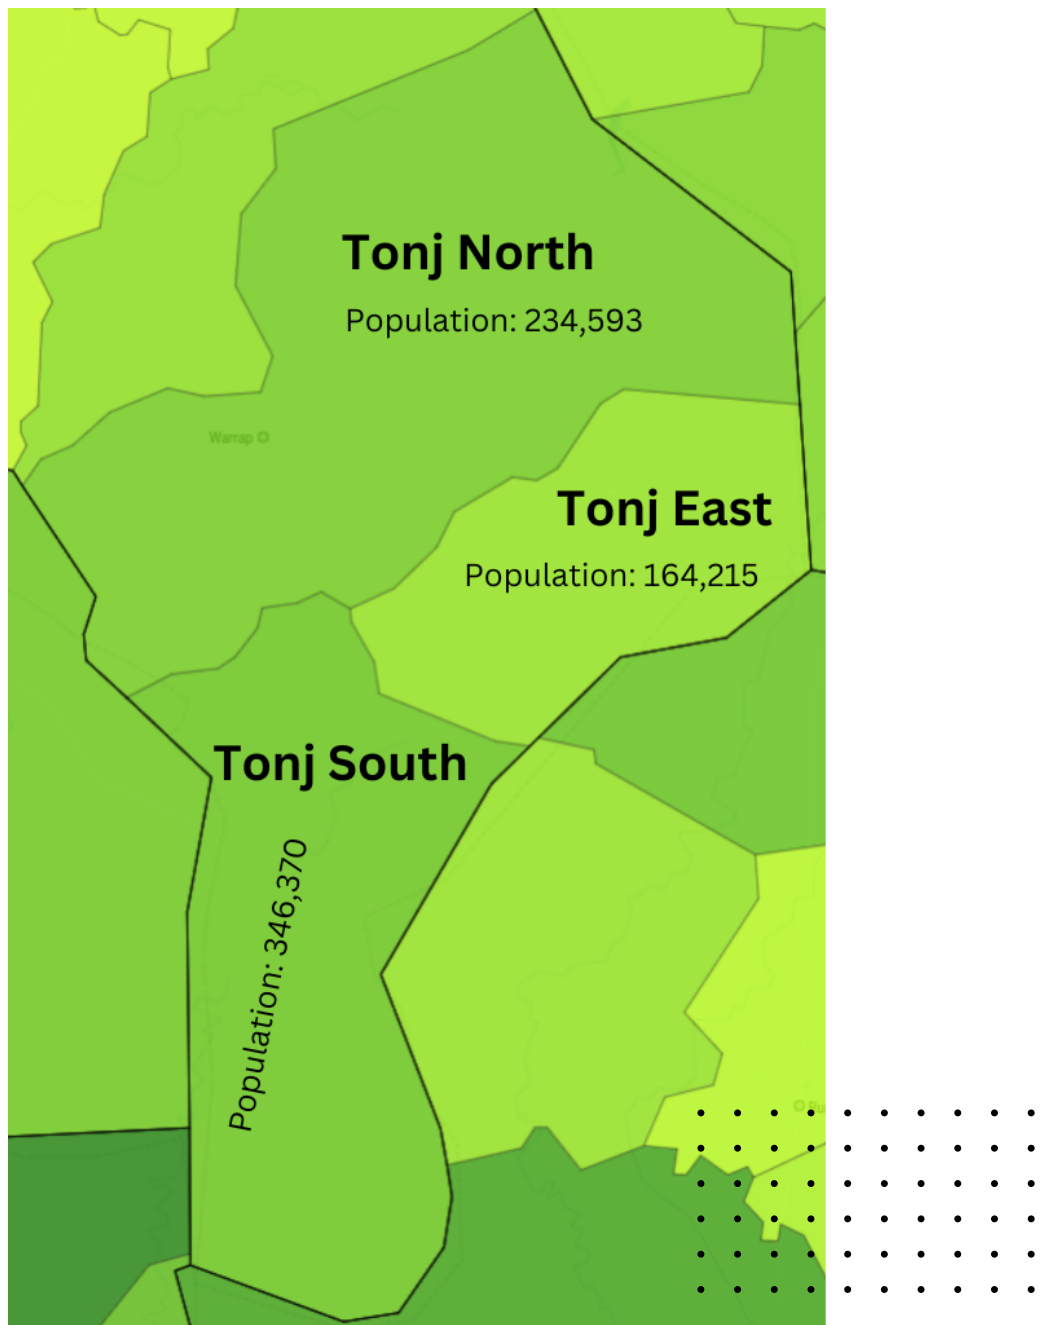

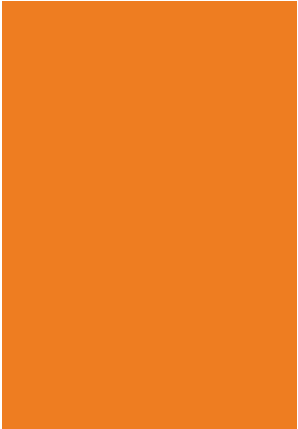

## Improving the Healthcare in Community

Give Education a Priority Organization (GEPO) a South Sudan-based organization which strives for sustainable improvement in the health and wellbeing of people in the Hai Malakal, area of Juba, South Sudan. Through sharing skills, we hope to transform lives, relieve suffering and reduce poverty. Wherever we work, we collaborate with local communities and other groups. We are committed to reducing inequity in healthcare and want to make their personal contribution to the achievement of the internationally agreed Sustainable Development Goals.

# AREAS OF OPERATIONS

Our areas of operation is currently in WARRAP STATE, in the Tonj East, South, and North areas respectively. We hope to expand to other areas and creater a greater impact in the communities.

# MANAGEMENT TEAM

Our organization is managed by a team of competent and qualified individuals, ensuring a smooth running of organizational operations.
